

Amino Blast

Control the bad odour in any organic waste (Compost Accelerator)

The product is formulated to reduce the bad odour generated in any type of liquid or solid waste. This can be used at the biological wastewater treatment to boost up the degradation and reduce the composting time.

Features and Benefits

- Reduce bad odour by digesting organic waste
- Increase the degradation rate
- Reduce toxic gases
- Can be used in both solid and liquid waste

Using Instructions

- Spread over the required area and mix properly with the waste (Liquid/Solid)
- No need to cover the load
- Do not use disinfectants when using Amino Blast.

For Solid waste -

Use 2kg of Amino Blast in to 1000kg of waste

For Liquid waste -

Use 100-200g of Amino blast in to 100,000 L of waste water

First Aid

Inhalation : Allow to breath fresh air if necessary

Ingestion : Rinse with clean water

Skin : Rinse with clean water

Eyes : Rinse with fresh water or eye wash seek medical advice if irritation persists

Active Ingredients

- ▶ Mixture of enzymes & digestive bacteria

Packing

200G | 1KG | 5KG

Keep out of reach of children

Store in a cool, dry, ventilated place in its original container | Avoid direct contact of sunlight and other chemicals
