

Aqua Clean 100

Aquatic Pond Water quality controller

Maintain the water quality and improves the growth of aqualic animals, digestion and immunity.

Features and Benefits

- ** Reduces the bad odor by digesting organic wastes
- ** Reduce toxic gases and inhibit harmful bacteria such as vibrio
- ** Improve the water quality and control pH

Using Instructions

For prevention : 80 – 120 g per 1 acre of pond (every 7 days)
For remedial: Increase to 120 – 200 g per 1 acre of pond (every 7 days)

Mix the required quantity and add evenly over the entire pond. The aerator should be continuously operated after application for proper mixing. The Product should be applied in the afternoon (during sunlight)

Active Ingredients

Bacillus Subtilis | Protease | Lipase | Amylase
